

Falcon 450

The Falcon 450 is an exhilarating performer - lightweight and agile, with excellent abilities even in adverse weather. It is highly regarded for spear fishing, diving, surf rescue, recovery operations, patrol, as a super yacht tender, or as a very versatile and cost effective small family boat for inland and offshore. Various console and seating operations are available, and even in open deck / tiller steering configuration it makes a great all-rounder. Don't be fooled by it's size - it is very much at home in serious waters.

Specifications
